FAWE Uganda, a membership organisation was established in 1997 and in February 2022 marked her Silver Jubilee with a theme "Breaking Barriers to Girls' Future through Education towards education with the goal of accelerating female participation in education and closing the gender gap within the education system at all levels in Uganda.

FAWE Uganda appreciates that while access to education is important, it should be of good quality, which underpins what the right to education is all about. FAWE Uganda has thus put greater emphasis in responding to this notable challenge of equity and quality of education in Uganda. Uganda Vision 2040, recognizes the need to provide assistance to people who are vulnerable either by age, social class, location, disability, sex, disaster or do not earn any income.

Vision *“A Ugandan Society where Girls and Women lead dignified lives”*

The overall Goal is “Girls across Uganda are able to access quality education.” This is supported by the strategic objectives of; improved level of gender responsiveness in Education Sector policies for girls and women, enhanced adoption and integration of positive gender pedagogy practices at school level; improved access, retention and completion rates for girls in school at all levels of education; strengthen research and knowledge management systems to inform policies, new approaches and set pace for girls’ agenda in Uganda in addition to strengthening institutional development to efficiently and effectively deliver its mandate.

The organizations work is embedded in four thematic areas of; policy influence for girl-child education, fostering positive practices and attitudes, FAWE Uganda evolving into a one center for girl-child education and transform into a strong learning and gender responsive organization.
